

Bird Deterrent Balloon Set

Contents: White, yellow, red, and black balloons

Including fastening cord, glitter ribbon, and glitter eyes

The bird deterrent balloon is ideally suited for bird control in fruit growing, vineyards, arable farming, and vegetable cultivation due to its shape, color, and the "eyes". For heavy infestations, combine the balloon with additional bird deterrent methods.

Place the balloon in a clearly visible location, preferably close to the area to be protected.

The balloon is made of PVC plastic and is inflated with normal air. When inflating, make sure not to overfill the balloon, as it may burst.

In strong winds, the balloon should be taken down.

Safety Instructions

- The balloon is not a toy. Keep out of reach of children.
- Use the balloon only for its intended purpose.
- Keep the balloon away from sharp objects to prevent damage.
