

Whistle Tape

Flute Tape 30m

Install tightly stretched between two posts, but not excessively tight. Avoid twisting the line and contact with other objects. Effective at distances of approximately 1.5 to 7.5 m between attachment points.

Flute Tape 500m

For agricultural use: position 60 cm above crops/rows, with a maximum spacing of 1.5 m between attachment points. For bushes, trees, and vines: install as close as possible to the buds or fruits to be protected.
